

CHAPTER 10 - THE BASIC COSINE CURVE

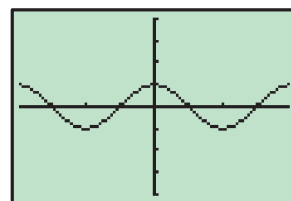

TI-84 Plus

Step 1 Enter $\cos x$ into Y_1 .

Step 2 Press **ZOOM** 7:**ZTrig** to graph the equation.

Press **WINDOW** to adjust the axis extents as appropriate.

Note: **ZTrig** will set the x -axis extents to -2π to 2π if the calculator is in radian mode and -360 to 360 if the calculator is in degree mode.
